

REMARKS

The Notice of Allowance mailed December 20, 2007, is noted with appreciation.

The specification has been amended in minor respects to better correspond to the claims as allowed.

For example, the Title has been amended to include a reference to "PRINTED ARTICLES," because same are recited in allowed claim 48, etc.

Likewise, the Summary section of the specification has been replaced with language drawn from certain of the allowed, independent, claims.

A Revised Application Data Sheet is submitted herewith, reflecting the amended title, and updating the inventor's address.

Favorable consideration is solicited.
